

WORRY-FREE EXTRAS

Additional dental benefits when you need them most

Regular check-ins with your dentist mean more check-ups on your overall health. Together, you can manage symptoms that could lead to dry mouth, gum disease, and even tooth loss.

Your mouth can tell you a lot about your overall health: More than 90 percent of diseases* show signs in your mouth, gums, and teeth. So, it makes sense that dental health should be an integral part of your preventive care routine. Research shows proper dental care can even help you avoid complications from certain health conditions.

Hassle-free support

If you're managing any of the following, your Blue DentalSM plan makes getting additional dental services — like cleanings, maintenance, and more — hassle-free.

- Diabetes
- Pregnancy
- Heart conditions (e.g. valvular heart disease and coronary artery disease)
- Stroke
- End-stage renal (kidney) disease
- Head or neck cancer treated with chemotherapy or radiation therapy
- Other cancers treated with chemotherapy
- Organ or bone marrow transplant
- Suppressed immune system (HIV/AIDS)

Available dental benefits based on health condition

After you're enrolled, these extra services are covered 100% — no waiting periods — with no out-of-pocket deductibles, copays or coinsurance.

Plus, these are truly extras that don't apply to your annual maximum benefit, which means you still get your full annual coverage as expected.

	Periodontal maintenance ¹	Periodontal scaling/root planing ²	Periodontal evaluation ³	Routine cleaning ⁴	Palliative treatment ⁵	Fluoride ⁶ and sealant ⁷	Full mouth debridement ⁸
Diabetes	✓	✓	✓	✓	✓		✓
Heart disease	✓	✓	✓	✓	✓		✓
